OUR PROCESS

Building the narrative

THE STORY BEGINS WITH.....

Located along the beach-front of Fort Lauderdale Beach Boulevard, the Sonesta Hotel Reception and Lobby Lounge will draw the guest into an oasis of relaxed sophistication for families, couples and business associates. Known as "the boating capital of the world," we took design cues from yacht details as well as the flora and fauna of the landscape and sea life. The light-filled Lobby plan is carefully articulated with cozy nooks, screens and comfortable seating. The combination of these elements result in a sense of place to unwind, breathe easy and connect. Clean-line architectural details accent the calming, elegant color palette, and weathered organic textures in combination with crisp layered silhouettes.

In contrast to the Lobby, the lively Sea Side Kitchen Restaurant, Bar and Pool areas entice guests to amble through an arcade with layers of discovery. Artwork, lighting and subtle architectural elements lead the guest to the outdoor veranda amenities and the beach.

THE GLENN HOTEL, AUTOGRAPH BY MARRIOTT

THE GLENN HOTEL, AUTOGRAPH BY MARRIOTT

The Glenn Hotel located in the Heart of Atlanta, is inspired by the traditional style and hospitality spirit of the Southern gentile Homestead with an updated modern twist. The eclectic and residentially inspired architectural language of the hotel interior, gives an intimate hand crafted feeling and makes guests feel welcome as if they have entered into a stately Southern Home. Friendly, service oriented people greet guests, serve signature Southern drinks and “soul food” of the old south. The entry, living and dining areas of the hotel will feel residential in scale with attention to painted paneling and trim details used as a backdrop for the artwork that explains the many unique stories and the personality of this metropolitan city. The hotel entry is light and bright and casual and feels like a side door entrance to someone’s home. In contrast, the more voluminous bar and living room spaces will be darker, more moody with comfortable, rich, traditionally inspired finishes and furnishings with a modern spin. The adjacent restaurant takes on the feeling of a fresh cafe bistro kitchen. There is a sense of surprise and whimsy in the artwork subject matter. Interior spaces will be punctuated with lion motifs derived by the original 39 lions on the exterior building cornice and is contrasted with the Southern Belle imagery. This new Southern Home inspired hotel of Downtown Atlanta, will be place to come to learn and experience true Southern hospitality!

THE GRADY HOTEL

Nestled in the heart of the downtown Market District, this historic boutique hotel in Louisville, Kentucky is a charming destination inspired by its past life as a pharmacy as well as the city's horse country heritage and traditions. A mix of old and new, this unique hotel will engage the aspiring millennial guest, the established corporate executive, as well as the weekend get-away couple. The rustic elegant décor will be the backdrop for social gatherings and community events. The lobby is a warm, friendly, and an interactive space that provokes conversations and offers intimate spaces to eat and drink. Bold, fresh elements contrast the overall neutral palette, while having a balance of masculine and feminine appeal. This rustic but refined modern look is composed of rough textured materials, found objects, and specialty finishes. These features are emphasized with dramatic lighting that changes from day to night. This property is a holistic turn-key renovation with a complete new brand identity. Every aspect of the hotel enhances the unique brand experience. Curated artwork and accessories, choreographed music, local food and specialty drink offerings, and architectural details will be the common thread throughout the three-dimensional experience. Imagine walking into an old world envelope filled with paradoxes of old and new, rough and shiny, soft and streamlined where industrial rustic elegance meets modern Southern charm. This property is the place of choice for locals to bring their friends and visitors to be immersed in Louisville's rich culture.

CROWNE PLAZA

The new Crowne Plaza Hotel is located along North Augusta's riverfront as part of the long awaited Project Jackson, named for the Augusta businessman who originally designed the town at the turn of the 20th century. The hotel is a central meeting spot for locals and visitors alike for community events, baseball, and to soak up southern hospitality. The overall exterior architecture of the hotel is inspired by the famous Hampton Terrace Hotel completed in 1903. Before it tragically burned to the ground in 1916, the grand hotel was a resort for the rich and famous and had gained the reputation of being one of the most beautiful and handsomely appointed hotels in the South. Industrialists John D. Rockefeller and Harvey Firestone along with department store mogul Marshall Field and President William Taft came annually to "winter" in the South to enjoy golf, tennis, horseback riding, hunting, fishing, and simply the best that Southern Hospitality had to offer.

Fast forward 100 years later, our fresh interior design direction gives a nod to the glamour of the Golden Age of the Hampton Terrace and its status as a respite for the leisure sportsman, while embracing the modern South. Pulling inspiration from the nearby Sibley Mill, a confederate gunpowder plant that was modeled after the British Parliament, our interiors blend the sophistication of the southern heritage of leisure sporting with the modern edge of the industrial aesthetic. Our design provides a warm and inviting backdrop using familiar materials and finishes with contrast, textures, and good proportions used in simpler, more modern ways. We embrace the contrasts between old and new, formal and informal, to create a sense of place that is welcoming, refined, relaxed, whimsical, and inspiring. The hotel's restaurant may feature "up and coming" southern chefs but it will always have fried chicken and shrimp and grits.

THE LAWRENCE, TAPESTRY BY HILTON

Founded in 1821, the city of Lawrenceville, Georgia is the second oldest city in the metropolitan Atlanta area. Named after famed Naval Officer, Captain James Lawrence, the city carries on his tenacious spirit and determination by forging a path towards the future and paying homage to its historical roots in agriculture, trade and raw building materials. Directly across the street from the hotel site is “Honest Alley,” the origin of the city’s trade industry. Local residents and visitors would buy, sell and trade agricultural goods, livestock and raw materials (like cotton) in “good faith.” The industry of trade was soon tested by catastrophic events such as the destruction caused by The Civil War and the infestation of the boll weevil on the cotton crops. However, Lawrenceville’s spirit persevered and soon after re-invented itself through industrial manufacturing of brick and lumber. The city continues to thrive and grow as its new chapter of history is now being written. Wood, stone, leather and other organic elements contrast the steel, brick, and industrial-inspired materials to balance the aesthetic throughout the hotel. Guests will be greeted in the lobby with a flooding of natural light through large industrial windows framed by rich, lush drapery and a curated mix of layered furnishings. The warm brick arches that encase the hotel’s restaurant will feature a blazing wood-fire grill, giving off a scent reminiscent of campfire throughout the dining room. Cozy nooks and large conversation areas in the courtyard provide the perfect backdrop to gather. The juxtaposition of natural and man-made materials will provide a harmonious combination evoking an alluring, yet familiar setting. Individual travelers will experience a sense of community within this unique, approachable, one-of-a kind designed hotel.

THE GRAND NATIONAL SPA

The Grand National is a three-level spa and fitness center in Opelika, AL providing guests and neighboring community a first-class wellness facility. This retreat borrows elements from the natural surroundings of the Alabama landscape and combines them with modern luxury.

Guests enter through the lobby and are greeted at a welcoming reception desk made from local Walnut tree. The lobby features a focal fireplace and tall windows surrounded by comfortable seating, hanging plants, swings, and smartly displayed products. The path to the locker rooms, lounge areas and showers has been well-planned for ease of circulation and privacy. Each treatment room invites individual guests to indulge their senses and relax their body and mind in a naturally calm setting. The quiet room is filled with candlelight, warm neutral colors, an inviting sauna and whirlpool experience and a twinkling southern sky ceiling. The hallway leading to the treatment rooms has dramatic vertical accent lights highlighting a textural stone wall and is punctuated with faux foliage giving the illusion of an outdoor space. The second floor has a salon with pedicure and manicure stations, hair styling services, a make-up artist station, and an array of beauty products on display. Upstairs, the fitness area provides the latest in equipment and a hydration bar. The light filled, open truss ceiling allows natural light in and the central multi-use exercise and movement room invites guests to join a yoga, dance, or body sculpting class. The facility was designed to provide a refresh to anyone's day; whether enjoying the spa, taking advantage of the salon or putting in some time at the gym, a visit to the Grand National Spa is sure to have guests leave with a reinvigorated pep in their step.

BELLEVIEW INN

Formerly known as the Belleview Biltmore Resort, The Belleview Inn is located in the coastal town of Belleair, Florida. The original Queen Anne style property was built in 1897 by Henry Plant and was a luxury retreat for many famous people, dignitaries, and leaders. The building is noted for its signature architectural features; its vintage green roof, white wood sided exterior, hand-carved woodwork and Tiffany glass on the interior- all of which have been restored or repurposed for the renovation. The new 35-room Belleview Inn, which is also on the register of Historic Hotels of America, celebrates Gilded Age glamour with a touch of modern Southern charm. The revitalized portion of the resort retains the classic symmetrical layout of the grand mansion as well as the sweeping porch, the grand staircase, a reading room, library pub, restaurant, and a vintage-style ice cream parlor. Guestrooms and suites are spread out between the 2nd through 4th floors, and guests are greeted each morning with a basket of freshly baked pastries and the morning paper. The rich history, legacy, and hospitality of the 120+ year property have been woven throughout the hotel in both a literal and an abstract form, bringing this exquisite hotel back to its former glory.

INTERCONTINENTAL

For the guest rooms and guest corridor of the Intercontinental Yorkville, the design direction was all about simplicity and luxury. We used natural materials and textures, and kept the color palette very neutral to appeal to a broad high end clientele in this upscale neighborhood of Yorkville. The corridors were dark and small, so we used light woods and whites to open the space up and bring in more light, making the space feel larger. The guest room design was highly focused on a luxurious guest bath and a beautiful and comfortable sleeping space.

PARTRIDGE INN, CURIO COLLECTION BY HILTON

The Partridge Inn started as a resort and retreat for Northern travelers from New York and New England to “winter” in the south. Established in 1882, it became known for its southern hospitality and friendliness. The hotel’s history is rich and over the years, this historic hotel has been a favorite place to visit by dignitaries and international celebrities as well as the people and tourists visiting Augusta. Our new “Southern with a Twist” design approach is an eclectic mix of furnishings that are inspired by world travel, have a warm and friendly, grounded, casual, yet sophisticated “club resort” style which utilizes warm, wood finishes, rich, deep, neutral colors, accented with whites, pops of color, burnished metals, leather, tailored classic patterns for rugs, fabrics, and bedding. The result is a custom tailored style that combines the best of old world glamor and charm with casual southern sophistication with a reassembled modern twist. Think of it as a modern version of the southern club resort. The guests coming to the new Partridge Inn will think of the hotel as the living room of the city. A popular place to meet and visit for drinks, dinners, to attend weddings, receptions, roof top events, and for the people of Augusta to welcome their guests to their city and the US Masters golf tournament.

SONESTA RESORT

This “one-of-a-kind” Sonesta Hilton Head Resort is a modern coastal interpretation of the South Carolina lowcountry and Hilton Head Island, combining the casual features of the local architecture and textures of the landscape with streamlined architectural details. The five-story concrete building was a full renovation of the Public Space Areas and Model Room, 340 Guestrooms, Guest Baths, Guest Corridors, four Hospitality Suites, five Suites, Public Restrooms, renovation of the Ballroom, 20,000 square feet of Meeting Rooms and the Prefunction areas. The overall spacial envelope is neutral and includes fresh color tones of white, sand, sea grass, warm grays of Spanish moss, shell tones and inspiring pops of coral. Words that help describe the feel of the spaces are: casual elegant charm, natural, weathered coastal landscaping of low shrubs, marsh grasses, palm trees, shells, elements such as birds, and sea grass. The inspiration was to take common things from the surroundings and give them a contemporary edge and to use them in unexpected ways. For instance, the lamps are made of driftwood and much of the porcelain tile is inspired by the wood planks of the board walk. Sonesta Hilton Head guests will enjoy friendly southern hospitality, breathe in fresh sea air, see lots of beautiful sunsets and relax. This is a place to have a reunion, a wedding, a conference, a family vacation; a place to eat fresh seafood and local vegetables. This is not just a hotel anymore, it is a true resort that people will want to return to again and again, where the relaxed elegance that the guests desire pairs so beautifully with the inspiration from the location.

GRAYLYN HOTEL AND CONFERENCE CENTER

This boutique hotel and conference center at Wake Forest University included the renovation of The Mews, a 1920's stable and poultry house surrounding an open courtyard on the Graylyn Estate. The stone, French Normandy-style buildings provided our team a wealth of inspiration for the 36 guestrooms, presidential suite, vice presidential suite, and junior suites, concierge lounge, restaurant, fitness center and other areas. SPS reimagined the Mews as an elegant but informal guest house adjacent to the grand dame manor house. By integrating the farm buildings, poultry house, and gardens as a consistent, wrapped space, they created a self-sufficient property with concierge, gift shop, hospitality and dining room, adjacent to the conference center spaces. The new space planning allowed for development of more luxurious and spacious suites, a fitness center, and achieved an "entrance" to the hotel. All guest rooms were updated with luxurious bedding and academic level working spaces, yet eclectic furniture plans and nostalgic artwork and 3D accessories made each room feel like home.

The basis of design for ES Raleigh is the significance of the Research Triangle, consisting of three major research universities (NC State, Duke, and UNC-Chapel Hill) in the region. The sciences, engineering, and health fields are a major industry in this area, and we designed this hotel with technology and ground-breaking discoveries in mind. We used digital and pixelated artwork, geometric lines and shapes, while also taking advantage of the beauty that can be found in something as scientific as looking through a microscope. The colors are clean whites complemented with natural wood tones and bright-colored accent furniture, showing the fun and dynamic sides of the research and engineering.

REEVES YOUNG

Reeves Young is a general contractor who specializes in heavy civil, water services, and commercial construction. They pride themselves on being diverse, trustworthy and loyal with an emphasis on people and relationships. Their corporate office was designed to inspire “Good Relationships.” Our goal was to create a variety of places for people to connect formally and casually. This was solved by developing a three-dimensional story through brand details, the clever use of building materials and the creation of diverse and collaborative work spaces. The branding was expressed by using green accents throughout and vertical and horizontal geometric patterns in the floors, walls and ceilings. As you enter the elevator lobby, blackened steel panels form the backdrop for the logo and mission statement and are accented with architectural lighting. Diversity and collaboration is expressed with the use of contrast in finishes and mood lighting. The arrival off the elevator is a rich, dark dramatic introspective space for “muddy boots” and polished loafers, while the lobby is a light-colored envelope with welcoming furnishings and finishes punctuated by the bright, white formal boardroom. The employee hub has a variety of comfortable, casual nooks as well as large communal gathering tables and places for employees to dine, work and play.

SONESTA HOTEL

Located in the Business District of Philadelphia, this 100,000 square foot, 25-story modern urban hotel was designed as an art gallery with decor inspired by business fashion. The hotel was a conversion from a Crowne Plaza property with a budget of \$28.6 million. The Owner's objective was to completely renovate all areas of the hotel as well as re-orient the public space to create a more direct access to the reception lobby off the street. The inspiration for the design team was to use the vibrant art scene of the city in unexpected ways. Bold, contrasting patterns and dramatic lighting are common to the public spaces. The condensed public areas provided the opportunity to saturate the space with design style and modern detailing out of traditional materials. The objective was to use patterns and textures found in fashion to inspire the materials of the floors, walls, and focal points. The artwork is integrated into the interior details and custom-crafted furniture components in the space. Architectural lighting accentuates the artwork and details while sculptural light fixtures punctuate the spaces.
