Deeply influenced by her mother's passion for antiques and re-purposing found treasures, Jenny learned from an early age to imagine possibilities. She used her creative imagination to direct and choreograph major interactive dance performances for her high school color guard team throughout her college years. Her love of complex dance events involving music, color, props and lighting led to her love of three dimensional composition. The love of these art forms led her to pursue her degree in interior design. She graduated from the School of Interior Design at Florida State University and began her career with two major firms before starting with Sims Patrick Studio in its infancy.

As Principal of Design and Construction, Jenny inspires design concepts and transforms stories into three-dimensional identity. She is an expert in interior architecture relating to proportions, special features, lighting and material while pushing the envelope of convention to create beautiful spaces that tell the story. Developing project schedules and reviewing interior architectural drawings and documentation is her specialty. From concept to finish, she thinks of every aspect of branding and knows how to detail the spaces to achieve the desired effect. Her leadership and mentoring style fosters creativity and confidence, igniting the best in the staff.

simspatrickstudio.com

A portrait artist and student of fashion and pop culture, Melissa was introduced to the world of luxury residential design by her high school teacher and gravitated towards the study of architecture and design. Today she combines her three-dimensional thinking with the right mix of furniture and finishes, the bold use of unexpected details to develop projects with a strong vision. With thorough research, the innovative use of form, color, texture, and a touch of classic glamour, she takes clients' dreams and creates thoughtful design that expresses a lifestyle.

During and after earning her Bachelor of Science degree in the College of Design, Architecture and Planning at the University of Cincinnati, she gained experience working for The Limited, Walt Disney Imagineering, Smallwood Reynolds Architects, and fell in love with hotel design at Studio L.

As Principal of Design and Operations, she is responsible for leading multiple hotel projects as well as the daily administrative operations of the firm. Her strong work ethic and management skills make her an excellent quality controller for the technical specifications of the customization of furniture, furnishings, and artwork (FF&A) as well as construction documentation. Her direct communication style, specialization in LEED projects, and her experience on very large, complex projects serve her well as a leader and mentor within the firm.

OUR PROCESS

Building the narrative

THE STORY BEGINS WITH....

located along the beach-front of Fort Lauderdale Beach Boulevard, the Sonesta Hotel Reception and Lobby Lounge will draw the guest into an oasis of relaxed sophistication for families, couples and business associates. Known as "the boating capital of the world," we took design cues from yacht details as well as the flora and fauna of the landscape and sea life. The light-filled Lobby plan is carefully articulated with cozy nooks, screens and comfortable seating. The combination of these elements result in a sense of place to unwind, breathe easy and connect. Clean-line architectural details accent the calming, elegant color palette, and weathered organic textures in combination with crisp layered silhouettes.

In contrast to the Lobby, the lively Sea Side Kitchen Restaurant, Bar and Pool areas entice guests to amble through an arcade with layers of discovery. Artwork, lighting and subtle architectural elements lead the guest to the outdoor veranda amenities and the beach.

THE TERRACE HOTEL, TAPESTRY BY HILTON

LAKELAND, FL

THE TERRACE HOTEL, TAPESTRY BY HILTON

The majestic Terrace Hotel located on scenic Lake Mirror in Lakeland, Florida, opened its doors in 1924 with a grand festive gala. This landmark hotel, recognized for its iconic floor-to-ceiling arched windows and dramatic pecky cypress patterned ceilings, continues to be one of Lakeland's top venues for wedding receptions and business gathering celebrations. The property's prominent location in the heart of downtown Lakeland, serves as a hub for multiple art shows, festivals and parades. Upon arrival guests are greeted by historical architectural details and a welcoming view of one of Lakeland's 38 lakes. The design inspiration for the renovation will take cues from its flamboyant 1920's art deco history, the elegant lines of the royal family's swan descendants and the lush gardens and vibrant hues of citrus groves nearby. The renovation captures its old world glamour while reviving the property with modern sophistication. Spaces are enhanced with updated finishes, local artwork and a mix of eclectic furnishings tying together the color palette and textures of the local flora, fauna, and wildlife. This elegant urban oasis will once again maintain and glorify its role in Lakeland as the "Living Room of the City" while appealing to all generations as a special place to gather and celebrate.

THE MAKING OF A DESIGNED SPACE: BIJOU

JAVITS CONVENTION CENTER, NEW YORK
BDNY 2021 | BOOTH #651

BDNY 2021 BOOTH - BIJOU

A “box of curiosities,”
“a hidden gem,”
“a speakeasy lounge”
.... with a twist.

This “box of curiosity” explores design concepts of a new-age, futuristic speakeasy bar of the next generation. The fully enclosed box will have a unique exclusive entry experience and will create a sense of wonder, curiosity and buzz of interest for guests. The nondescript exterior will starkly contrast against the unexpected, whimsical interior space. Once guests enter, they will be transported into a surreal monochromatic refuge with dramatic lighting, ceiling and focal interactive artwork. The patterns, graphics and elements of the iconic 20’s will be implied with a futuristic twist. The identity and branding of the new-age space will be carried through all aspects of the collateral and retail elements. The space will be full of contrast and juxtaposition of organic flowing forms against rigid linear lines. This box of curiosity and wonderment, will provide opportunities for guests to interact, create lasting memories and stand out as the “out of the box” booth design.

THE GLENN HOTEL, AUTOGRAPH BY MARRIOTT

ATLANTA, GA

THE GLENN HOTEL, AUTOGRAPH BY MARRIOTT

The Glenn Hotel located in the Heart of Atlanta, is inspired by the traditional style and hospitality spirit of the Southern gentile Homestead with an updated modern twist. The eclectic and residentially inspired architectural language of the hotel interior, gives an intimate hand crafted feeling and makes guests feel welcome as if they have entered into a stately Southern Home. Friendly, service oriented people greet guests, serve signature Southern drinks and “soul food” of the old south. The entry, living and dining areas of the hotel will feel residential in scale with attention to painted paneling and trim details used as a backdrop for the artwork that explains the many unique stories and the personality of this metropolitan city. The hotel entry is light and bright and casual and feels like a side door entrance to someone’s home. In contrast, the more voluminous bar and living room spaces will be darker, more moody with comfortable, rich, traditionally inspired finishes and furnishings with a modern spin. The adjacent restaurant takes on the feeling of a fresh cafe bistro kitchen. There is a sense of surprise and whimsy in the artwork subject matter. Interior spaces will be punctuated with lion motifs derived by the original 39 lions on the exterior building cornice and is contrasted with the Southern Belle imagery. This new Southern Home inspired hotel of Downtown Atlanta, will be place to come to learn and experience true Southern hospitality!

CROWNE PLAZA

NORTH AUGUSTA, SC

CROWNE PLAZA NORTH AUGUSTA

The new Crowne Plaza Hotel is located along North Augusta's riverfront as part of the long awaited Project Jackson, named for the Augusta businessman who originally designed the town at the turn of the 20th century. The hotel is a central meeting spot for locals and visitors alike for community events, baseball, and to soak up southern hospitality. The overall exterior architecture of the hotel is inspired by the famous Hampton Terrace Hotel completed in 1903. Before it tragically burned to the ground in 1916, the grand hotel was a resort for the rich and famous and had gained the reputation of being one of the most beautiful and handsomely appointed hotels in the South. Industrialists John D. Rockefeller and Harvey Firestone along with department store mogul Marshall Field and President William Taft came annually to "winter" in the South to enjoy golf, tennis, horseback riding, hunting, fishing, and simply the best that Southern Hospitality had to offer.

Fast forward 100 years later, our fresh interior design direction gives a nod to the glamour of the Golden Age of the Hampton Terrace and its status as a respite for the leisure sportsman, while embracing the modern South. Pulling inspiration from the nearby Sibley Mill, a confederate gunpowder plant that was modeled after the British Parliament, our interiors blend the sophistication of the southern heritage of leisure sporting with the modern edge of the industrial aesthetic. Our design provides a warm and inviting backdrop using familiar materials and finishes with contrast, textures, and good proportions used in simpler, more modern ways. We embrace the contrasts between old and new, formal and informal, to create a sense of place that is welcoming, refined, relaxed, whimsical, and inspiring. The hotel's restaurant may feature "up and coming" southern chefs but it will always have fried chicken and shrimp and grits.

THE LAWRENCE, TAPESTRY BY HILTON (IN PROGRESS)

LAWRENCEVILLE, GA

THE LAWRENCE, TAPESTRY BY HILTON

Founded in 1821, the city of Lawrenceville, Georgia is the second oldest city in the metropolitan Atlanta area. Named after famed Naval Officer, Captain James Lawrence, the city carries on his tenacious spirit and determination by forging a path towards the future and paying homage to its historical roots in agriculture, trade and raw building materials. Directly across the street from the hotel site is “Honest Alley,” the origin of the city’s trade industry. Local residents and visitors would buy, sell and trade agricultural goods, livestock and raw materials (like cotton) in “good faith.” The industry of trade was soon tested by catastrophic events such as the destruction caused by The Civil War and the infestation of the boll weevil on the cotton crops. However, Lawrenceville’s spirit persevered and soon after re-invented itself through industrial manufacturing of brick and lumber. The city continues to thrive and grow as its new chapter of history is now being written. Wood, stone, leather and other organic elements contrast the steel, brick, and industrial-inspired materials to balance the aesthetic throughout the hotel. Guests will be greeted in the lobby with a flooding of natural light through large industrial windows framed by rich, lush drapery and a curated mix of layered furnishings. The warm brick arches that encase the hotel’s restaurant will feature a blazing wood-fire grill, giving off a scent reminiscent of campfire throughout the dining room. Cozy nooks and large conversation areas in the courtyard provide the perfect backdrop to gather. The juxtaposition of natural and man-made materials will provide a harmonious combination evoking an alluring, yet familiar setting. Individual travelers will experience a sense of community within this unique, approachable, one-of-a kind designed hotel.

BELLEVIEW INN

BELLEAIR, FL

BELLEVIEW INN

Formerly known as the Belleview Biltmore Resort, The Belleview Inn is located in the coastal town of Belleair, Florida. The original Queen Anne style property was built in 1897 by Henry Plant and was a luxury retreat for many famous people, dignitaries, and leaders. The building is noted for its signature architectural features; its vintage green roof, white wood sided exterior, hand-carved woodwork and Tiffany glass on the interior- all of which have been restored or repurposed for the renovation. The new 35-room Belleview Inn, which is also on the register of Historic Hotels of America, celebrates Gilded Age glamour with a touch of modern Southern charm. The revitalized portion of the resort retains the classic symmetrical layout of the grand mansion as well as the sweeping porch, the grand staircase, a reading room, library pub, restaurant, and a vintage-style ice cream parlor. Guestrooms and suites are spread out between the 2nd through 4th floors, and guests are greeted each morning with a basket of freshly baked pastries and the morning paper. The rich history, legacy, and hospitality of the 120+ year property have been woven throughout the hotel in both a literal and an abstract form, bringing this exquisite hotel back to its former glory.

INTERCONTINENTAL

YORKVILLE, ONTARIO, CANADA

INTERCONTINENTAL

For the guest rooms and guest corridor of the Intercontinental Yorkville, the design direction was all about simplicity and luxury. We used natural materials and textures, and kept the color palette very neutral to appeal to a broad high end clientele in this upscale neighborhood of Yorkville. The corridors were dark and small, so we used light woods and whites to open the space up and bring in more light, making the space feel larger. The guest room design was highly focused on a luxurious guest bath and a beautiful and comfortable sleeping space.

PARTRIDGE INN, CURIO COLLECTION BY HILTON

AUGUSTA, GA

PARTRIDGE INN, CURIO COLLECTION BY HILTON

The Partridge Inn started as a resort and retreat for Northern travelers from New York and New England to “winter” in the south. Established in 1882, it became known for its southern hospitality and friendliness. The hotel’s history is rich and over the years, this historic hotel has been a favorite place to visit by dignitaries and international celebrities as well as the people and tourists visiting Augusta. Our new “Southern with a Twist” design approach is an eclectic mix of furnishings that are inspired by world travel, have a warm and friendly, grounded, casual, yet sophisticated “club resort” style which utilizes warm, wood finishes, rich, deep, neutral colors, accented with whites, pops of color, burnished metals, leather, tailored classic patterns for rugs, fabrics, and bedding. The result is a custom tailored style that combines the best of old world glamor and charm with casual southern sophistication with a reassembled modern twist. Think of it as a modern version of the southern club resort. The guests coming to the new Partridge Inn will think of the hotel as the living room of the city. A popular place to meet and visit for drinks, dinners, to attend weddings, receptions, roof top events, and for the people of Augusta to welcome their guests to their city and the US Masters golf tournament.

SONESTA RESORT

HILTON HEAD ISLAND, SC

SONESTA RESORT

This “one-of-a-kind” Sonesta Hilton Head Resort is a modern coastal interpretation of the South Carolina lowcountry and Hilton Head Island, combining the casual features of the local architecture and textures of the landscape with streamlined architectural details. The five-story concrete building was a full renovation of the Public Space Areas and Model Room, 340 Guestrooms, Guest Baths, Guest Corridors, four Hospitality Suites, five Suites, Public Restrooms, renovation of the Ballroom, 20,000 square feet of Meeting Rooms and the Prefunction areas. The overall spacial envelope is neutral and includes fresh color tones of white, sand, sea grass, warm grays of Spanish moss, shell tones and inspiring pops of coral. Words that help describe the feel of the spaces are: casual elegant charm, natural, weathered coastal landscaping of low shrubs, marsh grasses, palm trees, shells, elements such as birds, and sea grass. The inspiration was to take common things from the surroundings and give them a contemporary edge and to use them in unexpected ways. For instance, the lamps are made of driftwood and much of the porcelain tile is inspired by the wood planks of the board walk. Sonesta Hilton Head guests will enjoy friendly southern hospitality, breathe in fresh sea air, see lots of beautiful sunsets and relax. This is a place to have a reunion, a wedding, a conference, a family vacation; a place to eat fresh seafood and local vegetables. This is not just a hotel anymore, it is a true resort that people will want to return to again and again, where the relaxed elegance that the guests desire pairs so beautifully with the inspiration from the location.

REEVES YOUNG HEADQUARTERS

SUGAR HILL, GA

REEVES YOUNG

Reeves Young is a general contractor who specializes in heavy civil, water services, and commercial construction. They pride themselves on being diverse, trustworthy and loyal with an emphasis on people and relationships. Their corporate office was designed to inspire “Good Relationships.” Our goal was to create a variety of places for people to connect formally and casually. This was solved by developing a three-dimensional story through brand details, the clever use of building materials and the creation of diverse and collaborative work spaces. The branding was expressed by using green accents throughout and vertical and horizontal geometric patterns in the floors, walls and ceilings. As you enter the elevator lobby, blackened steel panels form the backdrop for the logo and mission statement and are accented with architectural lighting. Diversity and collaboration is expressed with the use of contrast in finishes and mood lighting. The arrival off the elevator is a rich, dark dramatic introspective space for “muddy boots” and polished loafers, while the lobby is a light-colored envelope with welcoming furnishings and finishes punctuated by the bright, white formal boardroom. The employee hub has a variety of comfortable, casual nooks as well as large communal gathering tables and places for employees to dine, work and play.

SONESTA HOTEL

PHILADELPHIA, PA

SONESTA HOTEL

Located in the Business District of Philadelphia, this 100,000 square foot, 25-story modern urban hotel was designed as an art gallery with decor inspired by business fashion. The hotel was a conversion from a Crowne Plaza property with a budget of \$28.6 million. The Owner's objective was to completely renovate all areas of the hotel as well as re-orient the public space to create a more direct access to the reception lobby off the street. The inspiration for the design team was to use the vibrant art scene of the city in unexpected ways. Bold, contrasting patterns and dramatic lighting are common to the public spaces. The condensed public areas provided the opportunity to saturate the space with design style and modern detailing out of traditional materials. The objective was to use patterns and textures found in fashion to inspire the materials of the floors, walls, and focal points. The artwork is integrated into the interior details and custom-crafted furniture components in the space. Architectural lighting accentuates the artwork and details while sculptural light fixtures punctuate the spaces.
